

25 YEARS OF JAVA CARD FORUM

A Foundation for the Future

JAVA CARD™ DEPLOYMENTS

Java Card is the leading platform for secure elements with over 6 billion devices issued in 2019 and still growing.

PAYMENT

Leading payment institutions trust Java Card to host their secure payment applications and accelerate vendor certifications.

CELLULAR CONNECTIVITY

Java Card technology enables flexible and secure connectivity solutions across multiple sectors, such as Telecommunications, Automotive and Internet of Things.

IDENTITY

Governments depend upon Java Card to secure their electronic identity documents.

AUTHENTICATION & ACCESS

Enterprise and cloud services rely on Java Card technology to securely authenticate access for users and IoT devices.

JAVA CARD UNIQUE BENEFITS

SECURITY

Java Card security is endorsed by certification schemes

CC

EMVCo
